

Beyond 2013: The Common Agricultural Policy and the South West

Bicton College, East Devon [by kind permission of the Principal]

5th March 2010

All day free event including lunch and refreshments

About the Conference

This event aims at giving the South West, as a rural region, an opportunity to hear from leaders in Agriculture and rural development in Europe about the next round of the Common Agricultural Policy, and for them to hear from the South West.

The aim is for the South West to have it's priorities on CAP heard by Europe in the areas of Agriculture, Food Security, Environment, Community and Social issues. This is in advance of 2013, so that suggestions produced by the conference can be worked on both by Europe and the South West, in time to make a difference. Be a part of that, but HURRY as places will be strictly limited when booking forms are sent out soon.

Chair
